PROTECTION TECHNOLOGY CO., LTD.**

POOL FILTER CARTRIDGE

Huisidun Environmental Protection Technology Co., Ltd.

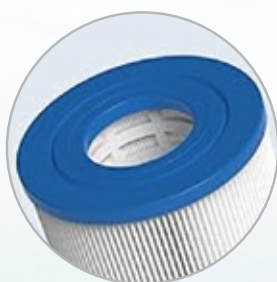

Huisidun environmental protection technology Co., Ltd. is located in Yuncheng, Shandong province. This is a high-tech enterprise which is professional in water treatment products research and development, production and sales. Our company has a number of independent intellectual property rights and its own brands; We have more than 70 advanced automatic production lines.

We are a professional & reliable supplier of water filter cartridges. Ascribed to our excellent quality control, best sales services, fast delivery time and competitive price, our products are sold well in such countries and regions as America, EU, Middle East and Southeast Asia.

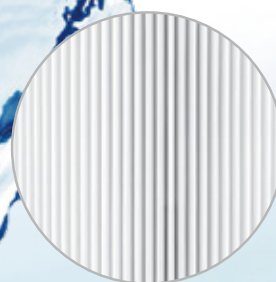

The filter fabric is high-quality PET Trilobal type, which has much more space to contain contaminant than common fabric, also has high toughness and tensile strength. The filtration accuracy is between 25 and 50 μ m which avoids affecting the service life of the filter due to too high filtration precision. It is easy for Trilobal fabric to release the contaminants out, so the fabric has longer service life. The filter can be reused after cleaning.

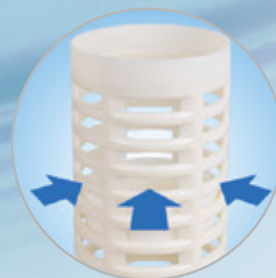

MOLDED END CAPS
NO ADAPTERS NEEDED
