Installation guide Project

- ☑ Environmental Hormone ZERO for the first time in the S.Korea!
- ☑ Acquisition of Manufacturer's Quality Assurance for the first time in S. Korea!
- ☑ Success of developing 'Double S' yarn shape on our way for the first time in S. Korea!
- ☑ To achieve all these results for the first time shows our innovative results with a lot of challenging.
- ☑ K&B JUNWOO recognized as the best quality and technology internationally and nationally!
- ☑ We go towards No.1 brand in the global artificial turf industry.
- ☑ K&B JUNWOO caters all over the world towards No.1 brand.

CEO Message

President.
Ha, Suk Jun

A stylized white signature of the President, Ha Suk Jun, on a green background.

The reliable partner leading the age of limitless competition, **K&B JUNWOO Co.,Ltd.**

Founded in 2008, originated from Yooshin textile company which has been run for 60 years keeping pace with the rapid changes in the market is the leading artificial turf manufacturer and installer of eco-friendly artificial turf in South Korea. We currently strive to become an example of the leading company in the world for the 21st century based on the advanced machines and innovative technologies for excellent qualities, and outstanding manpower.

In addition, we have been dedicated to the R&D of producing the outstanding and innovative products, which has achieved the result of having the superior technology for the quality of yarn which is the most important factor for safety, performance and durability of artificial turf. We drastically keep investing the R&D center since founded in 2012.

K&B JUNWOO will carry out our role with responsibility as a member of the community by working all employees together towards the reliable partner on the basis of the advanced management for all available to take part in. We will also win through the coming age of limitless competition with the company motto which is 'Be the first' by continuously fulfilling the great idea with our all employees and executives.

History

Best Quality

We are towards the global eco-friendly artificial turf maker.

20
23

- Obtaining Korea Football Association (KFA) certificate for the first time in S.Korea

20
21

- Obtaining official K-League Certified Ground on O-chen Eupmin Ground in Pho-hang
- Obtaining official K-League Certified Ground on Seoul Sangam Supplimentary Ground
- Obtaining official K-League Certified Ground on Nam-nyeong High school in Jeju Iland.

20
20

- Accomplish the first export to India
- Obtaining official certificate of K-League on KBEE45S
- Accomplish export to Dubai, Russia, Saudi Arabia and India
- Extend Green technology product test
- Renew the official excellent quality product certificate
- Accomplished a net profit 30 billion after official excellent quality certificate

20
19

- Obtaining K-GT1 on Busan Gangseo Sports Par K-league certified ground.
- Renew the KTA Certificate (KBSE20)
- Participate in Dubai Big5 Exhibition
- Partificate in China Domotex Exhibition
- Passed the extend test of Certification of Manufacturer's Quality Assurance
- Obtaining additional certificate of Designation of Excellent Product(KBEE20, KBEE45F)
- Accomplish the first export to Russia
- Obtaining ITF Certificate (Category 3, 4)

20
18

- Obtaining certificate of K-League on KBSEF45
- Obtaining certificate of K-League on KBEE45
- Obtaining certificate of ITF (category 5) on KBSE20-80
- Obtaining certificate of Designation of Excellent Product from Public Procurement Service
- Obtaining official certificate of artificial turf by K LEAGUE(Korea Professional Football League) for the first time in S.Korea
- Awarded certificate of commendation from Public Procurement Service
- Accomplish the first export to Peru

20
17

- Passing the FIFA(Federation Internationale de Football Association) lab test(including 5,000 hours UV test)
- Obtaining certification of product-specific approved exporter
- Obtaining certification of conserving and efficiently using energy and resources
- Supplied our artificial turf for football fields on the roof of the largest supermarket named 'Homplus' in S.Korea
- Accomplish the first export to Kuwait, Saudi Arabia and Singapore
- Patent no. 10-1731890. manufacturing method for artificial turf with advanced pullout through having improved mesh strength and artificial turf

20
16

- Obtaining SGS test report from 169 harmful substances
- Obtaining certification G-PASS (Certificate of Designation for as an Excellent Company for overseaspublic procurement market)
- Accomplish the first export to Chile, Philippines and Dubai
- Patent no. 10-1615153, artificial turf structure manufacturing equipment with air-knife and artificial turf structure manufactured with the equipment
- Patent no. 10-1635536, dual structured artificial turf with advanced shock absorption and its method
- Patent no. 10-1635540, artificial turf with advanced pullout through reduced coating volume, and its method

20
15

- Patent No. 1587741, on the method of manufacturing artificial turf mat with the composition of eco-friendly polyurethane artificial turf backing.
- Patent No. 1589407, on the manufacture method of eco-friendly artificial turf coating adding reusable eco-friendly acrylic copolymer
- Patent No. 1589406, on the manufacture method of functional artificial turf coating and on the manufactured eco-friendly artificial turf
- Awarded the appreciation plaque as to the installation of artificial turf stadium in Hanla university and the maintenance from the soccer association of Wonju.

20
14

- Certification of Manufacturer's Quality Assurance by Public Procurement Service (First certification in the industry of artificial turf)
- Eco-friendly artificial turf and performance infill including natural materials, patented manufacturing method
- Patented manufacturing method for artificial turf mats that have used eco-friendly polyurethane
- Patented Manufacturing method on the Highly elastic porous infill for artificial turf
- Acquisition of certification KSM 3888-1:2013, After developing refurbished yarn proportion and tuft withdrawal in water.
- Grant an appreciation for the football facilities / park in Gwanghaewon, Chungbuk

20
13

- Become a leading supplier of synthetic turf industry with 230,000㎡, 70 government supplies

20
12

- Environmental labeling certification
- Obtaining certification KISS, Korean Industrial Standards of Sporting Goods (Regulation of FIFA on artificial grass for football fields)
- Foundation R&D Institute of K&B JUNWOO - Acquisition of Q- mark for artificial turf
- KSM 3888-1, KS Certification in artificial turf for school sports facilities
- Patent No. 10-1112983, on artificial turf with bulky support
- Patent No. 10-1112985, on the method for manufacturing bulkiness artificial turf

20
11

- Grant an appreciation plaque for an exporter merit in Dalseong-gun
- Grant an appreciation plaque for Artificial turf installation in Hanzhong University
- Patent No. 10-1077918, on bioceramic method of manufacturing artificial turf
- Patent No. 10-1073966 method of manufacturing composite uneven yarn for artificial turf
- Patent No. 10-1063970 method of manufacturing bi-ceramic monofilament
- Installation of Germany double-tread Tufting machine
- Artificial turf registered as provisioning in 2011
- Installation Nylon ejector
- Installation the covering machine on the ejector

20
10

- Opening a Futsal field and exhibition, K&B JUNWOO
- Installation of rashel machine
- Registration for supply of artificial grass
- RS approval tests
- Selected by the Ministry of Knowledge and Economy as a manufacturer of artificial turf contributor standards
- Title to business landscape installation and construction of equipment

20
09

- Certification of ISO 9001 / ISO 14001
- Production artificial turf
- Installation of exclusive processor for artificial turf
- Japanese machinery installation tufting
- Installation of PE, NY ejector
- Obtaining the sales license and the manufacture of artificial turf

20
08

- Established K&B JUNWOO Co.,Ltd.

Technology of *K&B* JUNWOO, High Quality of Yarn Materials

Environmental Hormone ZERO NO SKIN TROUBLE

We always produce it for my kids!

| Using the best yarn materials (LLDPE)

- K&B JUNWOO materializes TNPP FREE by using LLDPE material produced by the largest chemical company in the world.
- K&B JUNWOO thinking of materials first produces high quality products.

| TNPP FREE, further than Innovation and Excellence

- TNPP (Tri Nonyl Phenyl Phosphite) is a phosphite stabilizer and antioxidant for LLDPE to be able to cause allergy or seizure.
- The artificial turf of is the most safest one recognized in the world owing to the harmless to humans by eliminating Nonylphenol.

**The closer to the nature!
The more safe to my body!**

K&B JUNWOO is its standard.

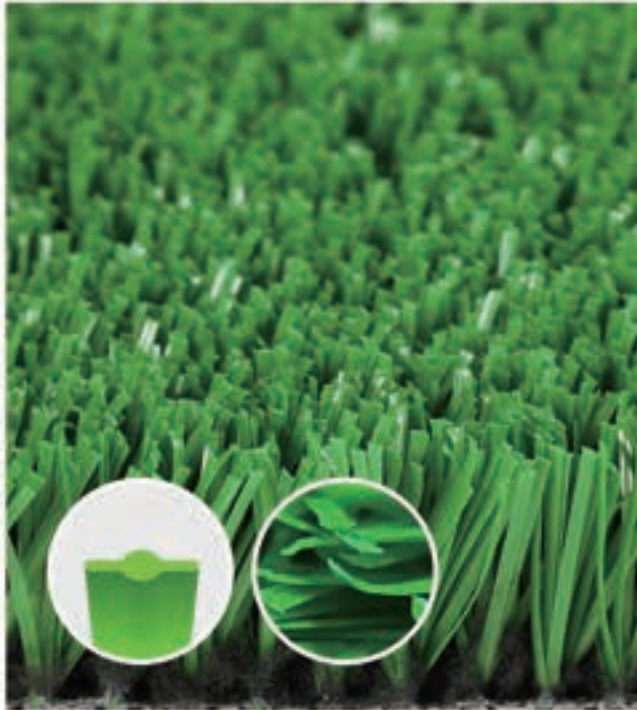

TECHNOLOGY

TECHNOLOGY

Technology of *K&B* JUNWOO, High Quality of Yarn

The quality difference starting with yarns, satisfying customers.

Spine Yarn

- Most similar appearance to natural grass
- Superiority of durability, wear resistance
- Assuring optimal performance equivalent to natural grass

W-shape Yarn

- Enhancing its rebound resilience and anti-static property
- Guarantee the grass better drainage than other turf
- Cooler than any other turf
- Keeping water which can be on average 30%
- Neat, soft and natural grass
- The W-shape was engineered to blend together the most desirable attributes of other yarns

U-shape Yarn

- weaving imitate natural grass
- Suitable for landscaping, playground, pet area, back yard, etc
- U-shaped designed yarns make the grass upright even under heavier pressure.
- Perfect rebound resilience and flexibility
- Nature simulation monofilament, multicolor

vvv-shape Yarn

- Suitable for landscaping, playground, pet area, Cololer than any other turf
- Keeping water which can be on average 30% than other ones on the market
- Guarantee the grass better drainage
- Enhancing its rebound resilience and anti-static property
- Neat, soft and natural grass the most desirable attributes of other yarns

TECHNOLOGY

Technology of *K&B* JUNWOO, IN-HOUSE CAPACITY

The products are produced after checking the strict quality standard with advanced production system.

The advanced Extrusion Machines Additionally Equipped!

We are capable of manufacturing high-quality products with the latest extrusion machines.

Powerful yarn defines everything.

| *K&B* JUNWOO Features of Yarn

- Nature-like Touch
- Excellent Resilience Increases Uprightness and Restitution Force
- Enhanced Durability

| Importance of Yarn

High-Quality Yarn leads to High-Quality Products.

It is significant since it influences the whole process of extrusion, tufting, and backing. We produce innovative products by enhancing the Yarn materials.

K&B JUNWOO makes yarn different. It is OUR INNOVATION!

01 | Extrusion Process

Manufacturing process of monofilament yarn for constant thickness by applying pigments and weather resistant additives to raw materials of PE, NYLON, PP

02 | Tufting Process

Manufacturing process of artificial turf by putting whole the multiplex monofilament type yarn into the needle of regular distance, tufting them to produce the grey production

03 | Backing Process

Manufacturing process that increases the force of tuft withdrawal by coating eco-friendly resin in order to fix the grey yarn tufted

TECHNOLOGY

Technology of K&B JUNWOO, Safety & Durability

The safest and eco-friendly product from UV and heavy metals

Perfect UV protection

K&B JUNWOO keeps the best quality with superior UV safety. Through the strict UV protection test, it keeps its own colour for long time and resists the severe weather from the sunlight, rain, windstorm to the snow.

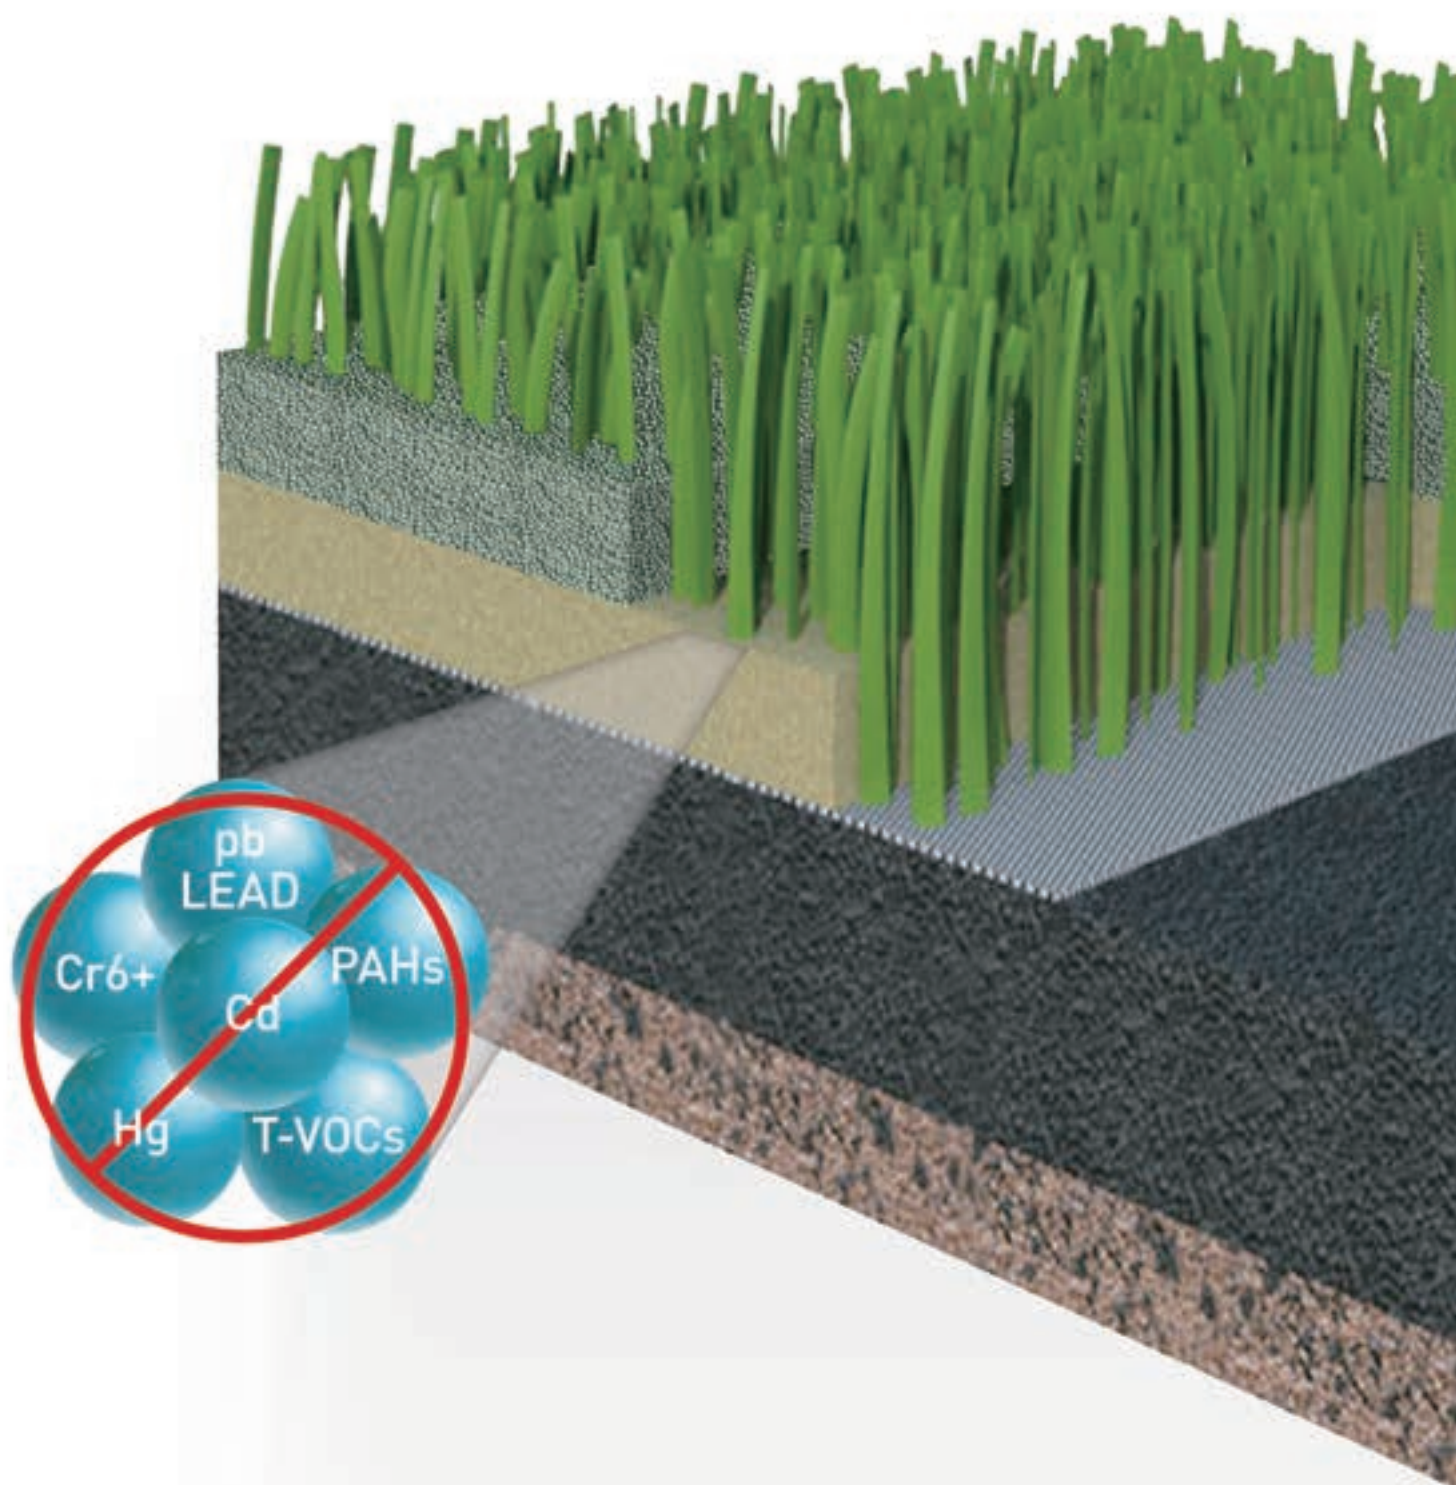

Superior durability & abrasion

We provide the customer satisfaction by supervising the quality control that much far surpasses one of KS (Korean Standard).

FREE Heavy Metals, Safe eco-friendly product

Harmful substance including Heavy metals (lead, cadmium, mercury, Cr6+), Volatile organic compound and PAHs etc. causes cancer, atopic disease and disease from the central nervous system, which increases the risk in particular to a child. The artificial turf products from are reliable and safe to use due to the ZERO harmful substance on the test report.

TECHNOLOGY

R&D center and Government guarantee certificate

The R&D Center

K&B JUNWOO holds our own R&D center (2012~)

| The Results of Technology Development

- Patent No. 10-1077918, on bioceramic method of manufacturing artificial turf
- Patent No. 10-1073966 method of manufacturing composite uneven yarn for artificial turf
- Patent No. 10-1063970 method of manufacturing bio-ceramic monofilament
- Patent No. 10-1112983, on artificial turf with bulky support

- Patent No. 1589407, on the manufacture method of eco-friendly artificial turf coating adding reusable eco-friendly acrylic copolymer
- Patent No. 1589406, on the manufacture method of functional artificial turf coating and on the manufactured eco-friendly artificial turf

The R&D center of **K&B JUNWOO** not turning off the light all night long

The certificate of Manufacturer's Quality Assurance Our products are reliable!

| What is 'Manufacturer's Quality Assurance'?

It is an advanced warranty system for quality management, responsible for the high quality by recognizing companies with excellent quality management.

| Qualification Examination Standard

Quality management system, Manufacturing process, Quality performance index
Application of most advanced self-management standard that required the condition more than KS(Korean Industrial Standard) and ISO. We are responsible for the high quality and improvement of quality management by the system, Manufacturer's Quality Assurance every year.

| The benefits of the company that has the certificate

- Designation of the Korean online shopping mall with mark
- Recognition as a quality certificate by the Korean government
- Points added for companies with it when qualification examination for national policy projects
- An award for the certification of Manufacturer's Quality Assurance

THE ONLY COMPANY
in the artificial turf industry,
obtaining the certificate
of Manufacturer's Quality Assurance
by the Korean Government.

K&B JUNWOO

New product KBSM series

Features of the new product yarn

- Includes features of shape memory that return to its original form as temperature changes
- Easily restore to original form during deformation in use
- Resolving the difficulties of fast aging and management which is the disadvantage of natural grass
- Long lasting natural feeling similar to natural grass
- Cost-effective with no need for frequent replacement and management

K&B JUNWOO Artificial turf for sports

Enjoy sports like on the natural field

Long pile
artificial turf of
K&B JUNWOO is

- Excellent artificial turf system designed with PE yarn, silica sand and performance infill which is much better performance than natural grass
- The specialized product for sports field with the best safety comfortability and elasticity
- Superior durability by using PE material
- Long pile artificial turf with high quality feeling the nature
- Available from 35mm to 65mm in pile height

Product

Sports

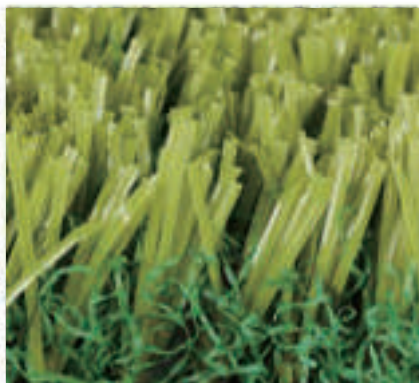

KBSMAE 40, 50, 60

product name	KBSMAE 40, 50, 60	pile height	40, 50, 60mm
Dtex	12,000	Yarn type	Monofilament
Gauge	5/8 inch	Yarn material	Polyethylene
Pile structure	Single	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Football

KBSM 40, 50, 60

product name	KBSM 40, 50, 60	pile height	40, 50, 60mm
Dtex	15,000	Yarn type	Monofilament
Gauge	5/8 inch	Yarn material	Polyethylene
Pile structure	Single	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Football

KBSMPH35

product name	KBSMPH35	pile height	35mm
Dtex	10,000/10,000	Yarn type	Monofilament/Curled
Gauge	3/16 inch	Yarn material	Polyethylene/Polyethylene
Pile structure	Double	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Football, Multiuse

KBSMAE40, 50, 60-88

product name	KBSMAE40, 50, 60-88	pile height	40, 50, 60mm
Dtex	8,800	Yarn type	Monofilament
Gauge	5/8 inch	Yarn material	Polyethylene
Pile structure	Single	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Football

KBSME35, 45, 55

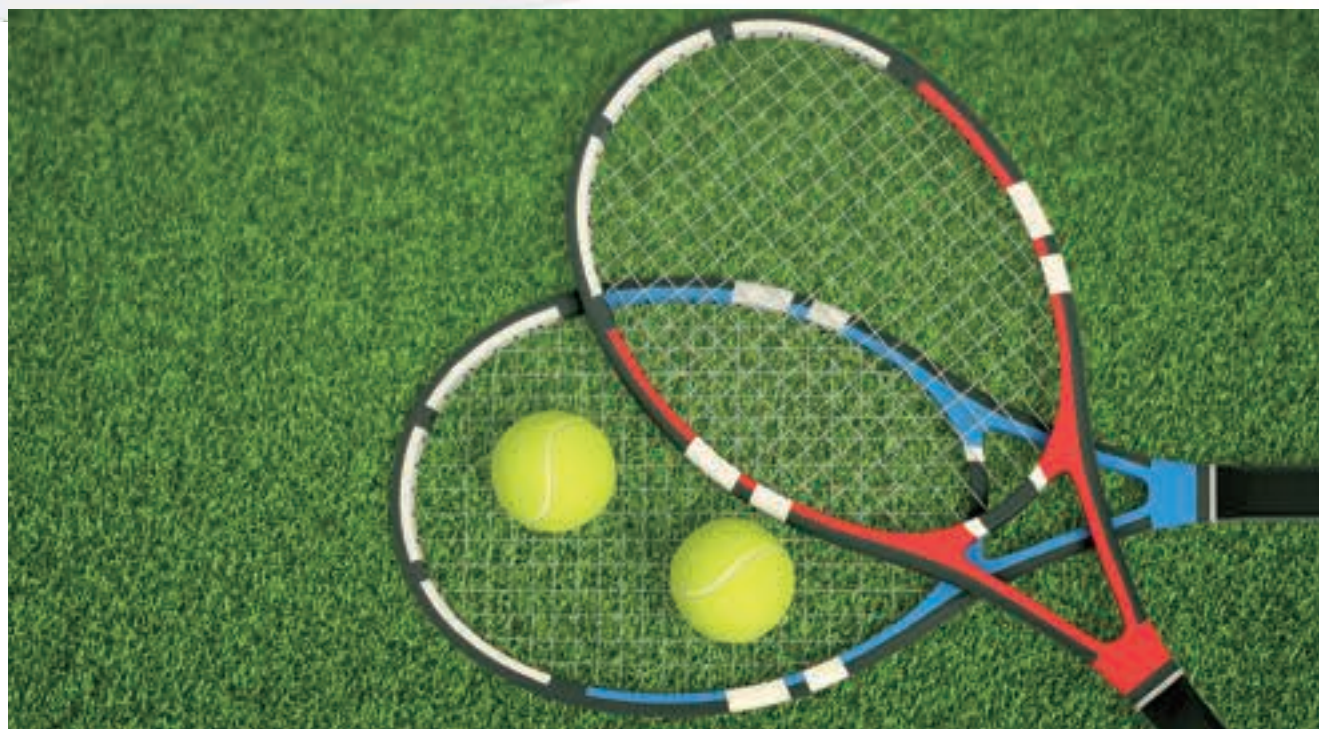

product name	KBSME35, 45, 55	pile height	35/23, 45/33, 55/43mm
Dtex	15,000/15,000	Yarn type	Monofilament
Gauge	5/16 inch	Yarn material	Polyethylene
Pile structure	Double	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Football, Multiuse

KBSME40, 50, 60-12

product name	KBSME40, 50, 60-12	pile height	40/28, 50/38, 60/48mm
Dtex	12,000/12,000	Yarn type	Monofilament
Gauge	5/8 inch	Yarn material	Polyethylene
Pile structure	Double	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Football, Multiuse

Product Sports

KBSE20-80

product name	KBSE20-80	pile height	20mm
Dtex	8,800	Yarn type	Monofilament
Gauge	3/16 inch	Yarn material	Polyethylene
Pile structure	Single	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Tennis, Multi-use

KBSE20-50

product name	KBSE20-50	pile height	20mm
Dtex	5,500	Yarn type	Monofilament
Gauge	5/32 inch	Yarn material	Polyethylene
Pile structure	Single	Backing	SBR Latex
Color	Olive, Field, Lime	Uses	Tennis, Multi-use

K&B JUNWOO Artificial turf for Landscaping

Feel the nature wherever you go

K&B JUNWOO's
artificial turf for
Landscaping is

- Eco-friendly products without heavy metals and harmful substances
- Imitation of nature with soft touch
- No dust with non-infill
- Extension of product life-span with UV protection
- Fresh atmosphere with reasonable maintenance expenditure
- Feeling relieved as to your kids playing on it due to harmless to human

Installation
places of
artificial turf for
Landscaping

- Playgrounds, Kindergartens, Golf courses, Indoor & outdoor gardens, and commercial spaces
- It is also suitable for concrete floors, rooftops, porches and a terraces wherever nature grass is not able to grow.

Product

Landscaping

KBSMLP25, 35, 45

Product name	KBSMLP25, 35, 45	Pile height	25, 35, 45mm
Dtex	8,800 / 3,300	Yarn type	Monofilament/Curled
Gauge	3/8 inch	Materials	PE/PP
Stitch	140	Backing	SBR Latex
Color	Light Green/ Green + Green Beige	Uses	Landscaping

KBSMLP+PH25, 35, 45

Product name	KBSMLP+PH25, 35, 45	Pile height	25, 35, 45mm
Dtex	8,800/3,300	Yarn type	Monofilament/Curled
Gauge	3/8 inch	Materials	PE/PP
Stitch	160	Backing	SBR Latex
Color	Light Green/ Green + Green Beige	Uses	Landscaping

Gauge	3/8 inch	Materials	PE/PP
Stitch	180	Backing	SBR Latex
Color	Light Green/ Green + Green Beige	Uses	Landscaping

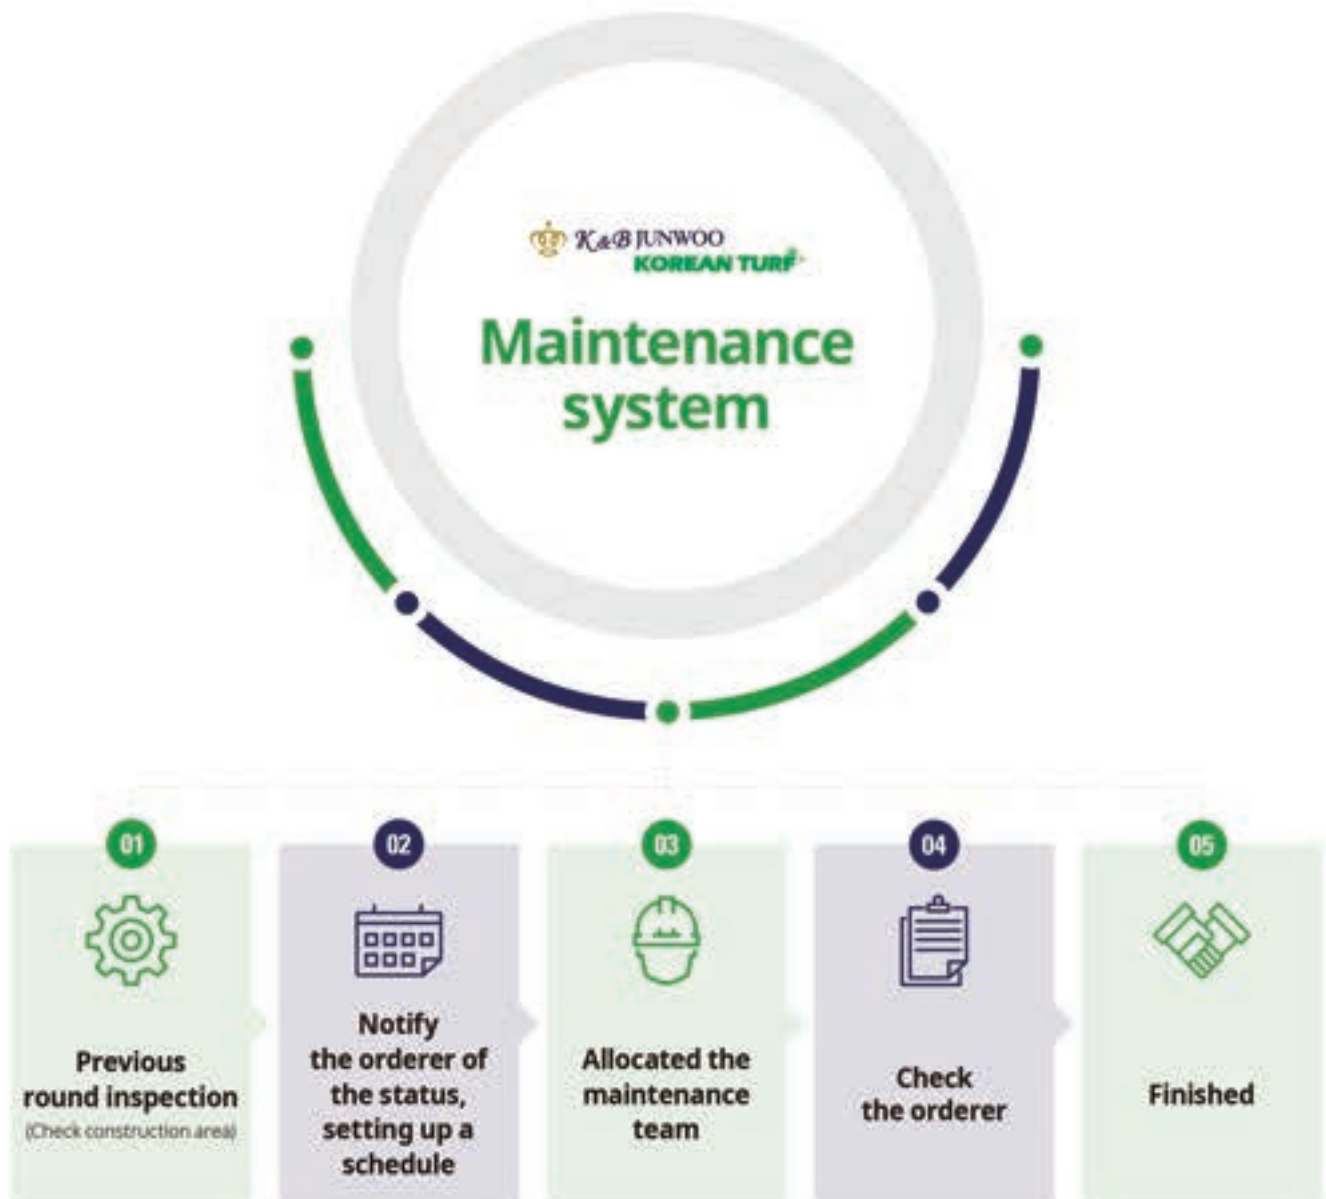

KBSMLP+NA40, 50

Product name	KBSMLP+NA	Pile height	40,50 mm
Dtex	11,000/5,000	Yarn type	PE/PP
Gauge	3/8 inch	Yarn Materials	Monofilament/curled
Stitch	160	Backing	SBR Latex
Color	Light Green/ Green + Green Beige	Uses	Landscaping

Installation guide

How to install artificial grass

01 Strict maintenance of artificial turf

Increased athletic performance and, decreased injury and complaints by users

02 Advanced Maintenance equipment

Silica Sand, Performance infill, separation of foreign substances, techniques of developed countries know-how for 20 years

03 Customized Service

Analysis on the frequency of use, artificial turf materials, and characteristics of the users

04 Maintenance teams

Possession of equipment and materials at all times
